

# SCIENCE

December 1, 2017: Week 14

This week students continued to work on calculating Net Force. Wednesday, we took a quiz on Net Force and students did rather well. Thursday and Friday were Benchmark days.

Next week students will learn about Newton's Laws of Motion and relate them to every day scenarios.

## Newton's Laws of Motion

### VOCABULARY TERMS:

Force Gravity Friction Motion

Balanced forces Unbalanced forces

Net Force Inertia

Newton's 1<sup>st</sup> Law of Motion

Newton's 2<sup>nd</sup> Law of Motion

Newton's 3<sup>rd</sup> Law of Motion

### Next Week in Science:

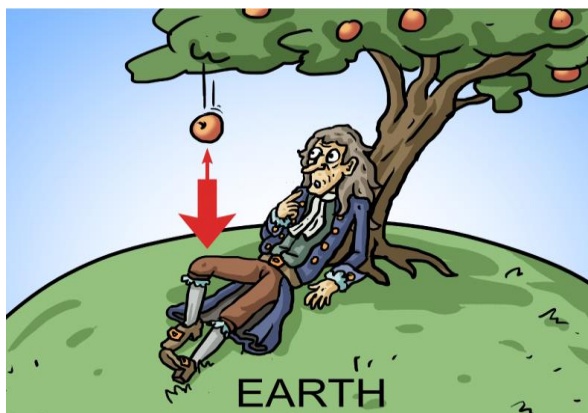

**Monday:** Newton's Laws Notes

**Tuesday:** Newton's Laws Chapter Questions

**Wednesday:** MOTION Station Lab

**Thursday:** Inclined Planes Lab

**Friday:** COMPUTER LAB
